Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I find it hard to explain my answers clearly. • I don't get clear feedback on my mistakes. • I want to know how well I really understand. • I need quick and fair evaluation.	THINKS • Am I explaining the concept correctly? • Will this be evaluated fairly? • What are my weak areas? • How can I improve my explanation?
PERSONA NAME (Role / User Type) Student / Learner	
DOES • Prepares for exams and interviews. • Practices explaining concepts out loud. • Gives mock tests or interviews. • Searches for feedback and resources.	FEELS • Anxious during exams or interviews. • Unsure about the correctness of answers. • Frustrated with confusing feedback. • Motivated to improve and perform better.

Example : Empathy Map
